Linkedin Leetcode Github

Profile

B.Tech Computer Science and Engineering student with a strong foundation in Python, Data Science, Machine Learning, and Artificial Intelligence. Experienced in data preprocessing, exploratory data analysis, feature engineering, machine learning model development, and data visualization through academic and personal projects.

Education

Durgapur Institute of Advanced Technology and Management — **Jul 2023 – Jul 2027**
B.Tech in Computer Science and Engineering, **CGPA: 8.28** — Durgapur, West Bengal

Radhanagar High School — **Jul 2021**
Secondary Education, **85%** — Bankura, West Bengal

Radhanagar High School — **Mar 2023**
Higher Secondary Education, **76.2%** — Bankura, West Bengal

Technical Projects

Smart-Cart Customer Clustering System:
Developed a machine learning-based system to segment customers based on purchasing behavior, enabling targeted marketing and personalized recommendations. Applied K-Means clustering and data visualization to identify customer groups and generate insights for targeted marketing and personalized recommendations.
https://github.com/sanjuDiatm-design/SmartCart-Customer-Clustering-System

YT Video Analyzer using Agentic AI:
YT Video Analyzer using Agentic AI: Developed an Agentic AI system to analyze YouTube videos, extract key insights, summarize content, and answer user queries intelligently. Build an intelligent AI agent that processes YouTube videos to generate summaries, identify important topics, extract insights, and provide context-aware answers.
https://github.com/sanjuDiatm-design/AI_YouTube_Video_Analyzer

Internships

- IEEE Computational Intelligence Society, Kolkata Chapter, Summer Internship.
- DATA SCIENCE Virtual internship position with “EliteTech Intern"

Technical Skills

- **Programming Languages:** Python, Java
- **Data Science**: Pandas, NumPy, EDA, Power BI
- **Machine Learning**: Scikit-learn, Regression, Classification, Clustering
- **Generative AI**: LLMs, Retrieval Augmented Generation (RAG)
- **Web & APIs**: Flask, FastAPI, Streamlit
- **Databases**: MySQL, MongoDB
- **DevOps & Tools**: Docker, Git, GitHub, Jupyter Notebook
- **Core CS**: Data Structures & Algorithms, DBMS, Computer Network, Operating System

Certifications

- The joy of Computing using Python (NPTEL)
- Machine Learning with Python (IBM)
- Getting Started with MongoDB Atlas (MongoDB)

Additional Information

Languages: English, Hindi and Bengali
Hobbies: Coding, Cricket, Carrom
